Hi Everyone

The hearing for the Mangawhai Central Plan Change (PP78) will be held in the Domain Hall on

Monday 23rd            10.00am to 5.00pm

Tuesday 24th          8.00am to 5.00pm

Wednesday 25th      8.00am to 5.00pm

The Mangawhai Matters team are scheduled to present on Tuesday from 11.00am to 5.00pm

Mangawhai Central will be presenting all Monday and part of Tuesday morning.

If your gardening is up to date and it is too rough for fishing please come along as a large attendance will show the commissioners that there is a lot of community interest. Every little bit helps in a case like this.

Thank you everyone for your donations that have allowed us to get to this point and produce an extremely good submission, with excellent expert witnesses to state our case.

There seems to be some misunderstanding regarding the KDC's response to the plan change. Some people seem to think the process was completed when KDC published their response. Their response is basically their submission to the hearing and they have to go through the same process as us at the hearing. For example, one of the KDC consultants recommended that the maximum number of houses should be 850 because of roading issues. KDC expert witnesses have to prove to the commissioners why this should be and the Mangawhai Central team will be fighting this tooth and nail.

Thank you to all the other submitters who will be personally presenting at the hearing, we have read your submissions and fully support them.

Once again thank you everyone for your support, we are highly optimistic that we will get a positive outcome.

Kind Regards

Doug Lloyd
